10 December 1948

25X1

Your letter of 1 December 1948 to the Central Intelligence Agency, for which I wish to express my sincere appreciation, has been referred to me for reply.

25X1

It is very gratifying to learn of the indorsement afforded by your Association in connection with the government's acquisition of land on River View Road. The proposed establishment of a commercial seaplane base at [redacted] is of considerable interest to this Agency, since serious interference to the monitoring operation would be experienced if air landing facilities were established within a five mile radius of the monitoring site. I should like very much to be advised of any further developments in connection with the establishment of this seaplane base if they should come to your attention.

Your interest in this matter is greatly appreciated.

Sincerely,

L. K. White
